"Kavi draws from the rich heritage of her childhood homes in rural India and simplicity discovered in global travel. Her designs re-examine organic forms and colors. As a painter, rug designer and curator of everything design, each rug symbolizes her appreciation of beauty- in thought and action."

## A THEORY OF 'CHAOS'- RUGS BY KAVI

Chaos Theory by Kavi, traces the beauty in nature's seemingly cluttered patterns. Enthused by natural materials, classic color palettes, and the distinctive work of artisans and craftspeople she works with; Kavi's rugs are inspired by the purity and chaos in nature. The handcrafted rugs are inspired by nature and refabricated into modern and futuristic forms.

**Collection-** Chaos Theory

**Material-** Bamboo Silk and hand processed wool
